IFSA-Butler course code: SOCI260
Course length: Semester
Delivery method: Face to face
Language of Instruction: English

COURSE DESCRIPTION
This course for American students provides a topical introductory survey of the culture and society of China since early times, focusing on contemporary China. It will familiarize students with their surroundings, strengthen their academic knowledge of China, and prepare them for research based in Shanghai on China’s current development trends, practices, and policies.

In this course, we will examine the complexities of social issues in contemporary China. Starting from people’s everyday life, we will learn to approach Chinese culture and social issues through the lenses of globalization and modernization. We will introduce theoretical tools like the body to explore the state’s one-child policies, rural/urban division, health care system in urban China. Throughout this course, we are asking what counts as a better life to Chinese people and how they have been pursuing it over the past thirty years.

STUDENT LEARNING OBJECTIVES
- Understand key elements of culture in contemporary China.
- Utilize theoretical tools to analyze social issues in China.
- Strengthen critical thinking skills.
- Become familiar with resources available for further research on contemporary China.
- Make cognitive connections between learning in this course and other learning experiences in the IFSA 21st Century City program in Shanghai.

Assessment Criteria
Site Visits and Field Report
You will explore people’s everyday life. You are required to take field notes during each site visit, write a field report and give a presentation afterward. You are also encouraged to use course reading materials to analyze your field data. I will give you specific instructions before each site visit. Due to some uncertainties, though we have planned some site visits related to the learning topics during our regular class time, some adjustments to the original plans may be necessary. You will be notified of any schedule in advance.

**In-class Discussion and Weekly Response Paper.**
The purpose is to check if you read the articles. You have to finish reading all the readings before you come to class and write one page long (single space) response paper based on the readings for the week.

**Capstone Project**
In the Capstone Project, students will be instructed to delve into a particular area of interest over the course of the semester as part of their academic work. The instructor of the course and your Resident Director will help students refine their ideas and plans fitting to the course. Students will also develop their ideas for their Capstone Projects during tutorial sessions. The Capstone Project makes use of more than academic readings and secondary source materials (such as published research data and other findings). While these are potentially very important components of any Capstone Project and should be part of your project here, your Capstone Project is more importantly intended to be a one in which you take advantage of being in China. Your work will not only be more interesting but you will learn a great deal by using the resources that you would not have access to at your home university. Think of ways to incorporate interviews, participant observation, and other methods to inform your final paper and presentation. In the end, we hope that you can develop this project as part of a senior thesis or broader Capstone Project in the future.

**Course Policies**

**Exams and Assignments**
Students are required to take all regularly scheduled exams in courses for which they are registered, and to submit all assignments on time. Any compelling academic, personal, or medical reason that might justify a rescheduled exam or assignment must be brought up to the Resident Director, not program faculty. Failure to take scheduled exams or submit the requisite assignments for a course will adversely affect your grade as per the stated grading criteria for each course.

**Classroom Conduct**

Student punctuality is extremely important in China and India. Please do not be late for classes or other activities, as it is considered impolite to do so. It is improper to eat in class, to engage in other activities such as texting, or to slump or nap. Students are expected to be alert and engaged as a sign of respect for their professors.

**Attendance**

Everyone benefits by learning from each other; if students are not present, it affects everyone and negatively impacts the program. Attendance is required for all classes and mandatory field visits; attendance will be recorded. Students must notify their instructors and the resident director ahead of their absence from class or class-related activities. Class participation is expected and is a contributing factor to students’ final course grades.

**TIMELY SUBMISSIONS**

Assignments submitted after the deadline will be accepted at the discretion of the course instructor and generally only in the event of a documented illness or emergency.

**ACADEMIC INTEGRITY**

Any academic endeavor must be based upon a foundation of honesty and integrity. Students are expected to abide by principles of academic integrity and must be willing to bear individual responsibility for their work while studying abroad. Any academic work (written or otherwise) submitted to fulfill an academic requirement must represent a student’s original work. Any act of academic misconduct, such as cheating, fabrication, forgery, plagiarism, or facilitating academic dishonesty, will subject a student to disciplinary action.

IFSA-Butler takes academic integrity very seriously. Students must not accept outside assistance without permission from the instructor. Additionally, students must document all sources according to the instructions of the professor. Should your instructor suspect you of plagiarism, cheating, or other forms of academic dishonesty, you may receive a failing grade for the course and disciplinary action may result. The incident will be reported to the IFSA-Butler resident director as well as your home institution.
